SUMMARY

Computer Science Engineering graduate with hands-on experience as a Full Stack Developer Intern. Strong in Java, React.js, JavaScript, RESTful APIs, and MySQL. Experienced in building responsive web applications, backend services, and database-driven systems. Familiar with cyber security fundamentals and penetration testing. Seeking entry-level full stack or software development roles.

SKILLS

Professional Skills

Web Development Cyber Security
Problem Solving Team Collaboration

Technical Skills

Core Java (OOP), JavaScript, HTML5, CSS, React.js, Python, MySQL, RESTful APIs, IoT, Git

EXPERIENCE

Full Stack Developer Intern

Mar 2025 - Sep 2025

JSpiders

- Developed end-to-end responsive web applications using HTML, CSS, JavaScript and React.js.
- Implemented RESTful APIs and integrated with MySQL for database operations.

Cyber Security Intern

Oct 2023 - Nov 2023

Plasmid Innovations

- Assisted in the identification and mitigation of security vulnerabilities across the organization's assets.
- Conducted penetration tests, analyzed system vulnerabilities, and developed strategies for enhanced security.
- Utilized ethical hacking tools and techniques to assess and strengthen security protocols.

PROJECTS

Aspect-Based Sentimental Analysis

Python, NLP, BERT, Naive Bayes, ML

- Built an NLP pipeline for aspect extraction and sentiment classification on code-mixed social media data
- Implemented and compared LLMs, BERT, and Naive Bayes for aspect extraction and sentiment classification
- Benchmarked multiple ML models to improve classification accuracy across mixed-language inputs

Online College Canteen Website

MySQL, HTML, CSS, JavaScript

- Developed a full-stack web-based food ordering system with real-time order tracking and vendor dashboard.
- Implemented authentication, order processing, and CRUD-based inventory management using Java and MySQL.

Smart IoT Fan

Arduino, IoT, LM35 Sensor, Embedded Systems

- Designed an Arduino-based smart fan with automatic speed control using LM35 temperature sensor.
- Enabled real-time monitoring and remote control via an IoT-based web/mobile interface

EDUCATION

Malnad College of Engineering

Hassan, Karnataka

Bachelor's Degree in Computer Science Engineering – CGPA: 6.5

2021 - 2025

- Completed key projects in Web Development, Machine Learning, and IoT.
- Active participant in technical clubs and coding contests.

Mahesh PU College

12th Standard – 70%

2020 - 2021

Stella Maris High School

10th Standard – 73%

2019 - 2020

ADDITIONAL INFORMATION

Languages: Kannada, English

Areas of Interest: Web Development, Cyber Security, Machine Learning, IoT
